1. Aishwarya Shenvi

Time & Venue:

9:00 am – 2:00 pm

Advance Technology Lab
(ATL Lab), 2nd Floor

No. of Participants:

21

ALLYN FUNDS UPSKILLING SCHOLARSHIP

Event Pre-requisites were explained a day before by Prof. Teena Varma (WDC Convener) and Prof. Stella J (Speaker) on 11th August 2023.

The Event was inaugurated by Respected Director Fr. John Rose where he introduced Speaker Prof. STELLA J (Assistant Professor, Department of Information Technology) and motivated all the girl students with his inspiring words.

The speaker of the event Prof. Stella J begun the IOT (Internet Of Things) course with giving real life applications of IOT where she even shared the projects that were made by the seniors and inspired students to make the best use of the course. All the students were divided into the group of 3 and were with a kit which consisted of various components that were used during the entire course. Students had a hands on experience which was a bonus point to all. The one of the motive of the course was to build various interpersonal skills such as achieving Team Work along with building various technical aspects. Dharmaraj Stalin assisted Prof. Stella J during the entire course. All the doubts were cleared one on one which was of great help to students.

Ms. Aishwarya Shenvi proposed a vote of thanks.

PROF. TEENA VARMA
WDC CONVENER

GLIMPSE OF THE EVENT

 **XAVIER INSTITUTE OF ENGINEERING**
