On October 19th, 2024, Allyn Girls hosted a breakfast meeting with Mr. Allan and Mrs. Lynda, two generous donors who have pledged to sponsor certified courses for female students. The event, which began at 9:00 AM, was warmly introduced by Fr. Dr. John Rose S.J, who highlighted the couple's commitment to enhancing educational opportunities for women.

During the meeting, Mr. Allan shared his vision for the sponsorship, fostering an engaging and collaborative environment. Mr. Allan emphasized the importance of a yearly calendar outlining the courses to ensure they are aligned with student needs and goals.

A heartfelt moment of appreciation followed, with a poster signed by all attending female students presented to the couple as a token of gratitude. Mr. Allan, Mrs. Lynda, and the director and the Allyn Girls later signed the poster, symbolizing the strengthened bond between the donors and the Allyn Girls community.

To further honor the couple's contributions, they were gifted a flower plant and a framed piece featuring personalized messages of thanks from the Allyn Girls. The meeting concluded with a visit to the third-year students' project presentations, allowing Mr. Allan and Mrs. Lynda to witness firsthand the talent and creativity of the students their support is helping to cultivate.

This inspiring event underscored the profound impact of their support, reaffirming the shared commitment to empowering young women through education.

These are the insights of the Allyn girls' activities that they did in the second half of July:

Shravni Bandodkar

A second-year Computer Science Engineering student, has had a remarkable October filled with achievements and celebrations. She attended a motivational breakfast with faculty members Allan Sir and Linda Ma'am, completed the GDG Cloud Skills program earning 15 badges, and even mastered an arcade game to enhance her cloud computing skills. Additionally, Shravni successfully finished her mini-project, marking a significant academic milestone. To round off the month, she enjoyed a vibrant Dussehra celebration, providing a joyful break from her studies. Shravni's month has been a perfect blend of learning, achievement, and festivity.

Bhanavi Pandey

A third-year Computer Science Engineering student, has had an engaging month marked by leadership and creativity. She successfully organized a meet-up for the Allyn girls, attended by faculty members Allan Sir and Lynda Ma'am, along with Father John Rose. Bhanavi also completed her semester's IoT mini-project, which skillfully integrated both hardware and software components. Currently, she is focused on earning her GDG badges while enjoying a fun day out with friends at a stand-up comedy show featuring Bassi. Looking ahead, Bhanavi is actively planning new activities and coordinating courses for the Allyn girls' upcoming vacation, demonstrating her commitment to fostering community engagement.

Anushree Verma

A second-year Computer Science Engineering student, has had a remarkable month. She completed the GDG Cloud Skills program, earning 15 badges in various Google Cloud technologies and reaching a high level in an arcade game. After exams, she focused on her hobbies, finishing her 17th book of the year and maintaining her Duolingo Spanish streak. An inspiring breakfast with Allan Sir, Linda Ma'am, and Father John Rose boosted her motivation. Anushree also wrapped up her ShopNjoy eCommerce website mini-project, showcasing her web development skills, and enjoyed Navratri celebrations with her sister, making October truly memorable.

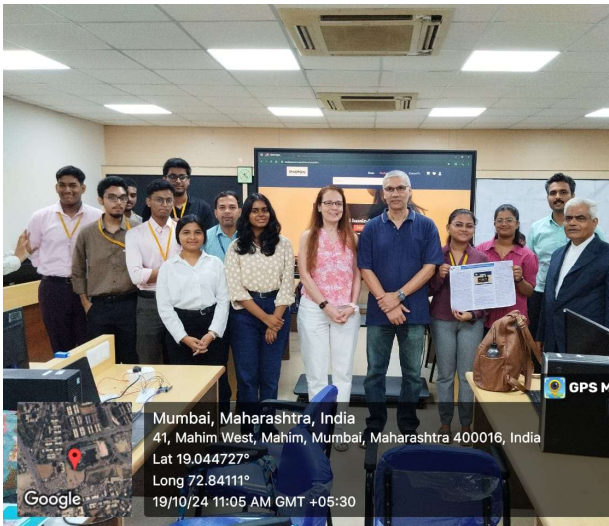

Riya Kamble (BEIT)

She has successfully completed three mini projects, submitting and presenting them along with practical assignments. Currently, She is enrolled in TalentSprint's GenAI course to

expand her AI skillset. Additionally, She contributed to strategic planning for the upcoming Allyn Girls course.

Anjali Walekar

A second-year Computer Science Engineering student, has had an eventful month. She completed 16 skill badges in the GDG Cloud Skills program, which can be viewed on her Google Cloud Skill Boost account. Anjali also attended an inspiring breakfast with Father John Rose, Allan Sir, and Lynda Ma'am. After finishing her viva

and practicals, she earned her certificate for the IBM cybersecurity internship program. To top it off, she enjoyed Navratri celebrations with her family, making this month memorable.

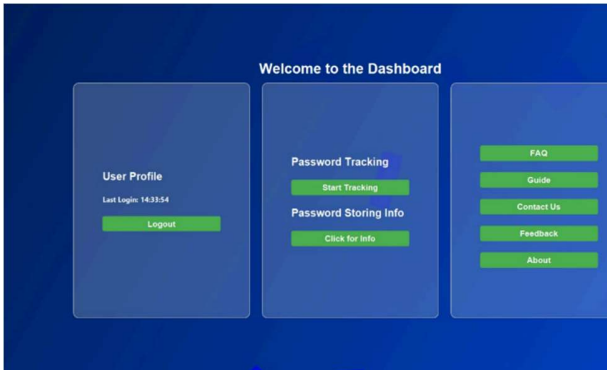

Allison Maegan Suvarna

A second-year Computer Science Engineering student, has had a fulfilling month. She completed all her mini-projects, focusing primarily on her ShopNjoy project, and achieved all GDG badges while advancing her academic skills. A meaningful breakfast with Allan Sir, Linda Ma'am, and Father John provided her with valuable insights and motivation. Through GDG, Allison expanded her network and deepened her understanding of cloud technologies. After meeting her project deadlines, she enjoyed quality time with family and friends, helping her recharge. Connect with Allison on LinkedIn to follow her journey

Priyanka Reddy (TE CSE):-

Priyanka Reddy, a third-year Computer Science Engineering student, has had a rewarding month. She met with Allan Sir and Lynda Ma'am, gaining valuable insights into the goals of the Allyn Committee. Priyanka has completed all required submissions and is currently engaged in practical and viva exams, reflecting her hard work and preparation. She successfully finished her semester mini-project, focused on a Customer Relationship Management (CRM) system. Alongside her coursework, she is taking a Google Development Group course on cloud computing, earning badges as she progresses through each module, demonstrating her commitment to skill-building in this vital field. With Diwali approaching excitedly planning for the festival, which represents joy, prosperity, and new beginnings.

Kanchan Kumari (SE IT)

spent loads of time on coding. Also did final touchups in her mini projects.On the event side, She worked on Cyber Shakti's publicity, promoting it as a training opportunity for female students, She had exams too, so lots of study time.

Lekha Pulavarthy (TE-IT) To initiate our major project, She began by researching potential topics. Simultaneously, in her role as CSX committee coordinator, She concluded outstanding tasks from the past academic year to ensure a smooth transition.

Samrudhi Gaikar,

A second-year Electronics and Telecommunication Engineering student, has had a busy and productive month. She successfully completed her assignments and practical exams while wrapping up two mini-projects: a Hospital Management System and an Alcohol Detector. Adding to the month's excitement, Samrudhi celebrated her birthday with friends and family and enjoyed the festive Dussehra celebrations. It's been a fulfilling time for her, balancing academic commitments with joyous moments!

Rebecca Celine Sam

a second-year Computer Science student, has had a demanding yet fulfilling month. A highlight was attending a breakfast with Allan Sir and Linda Ma'am, where she learned more about becoming a member of the Allyn Girls community. She successfully completed the Google Developer Group's Cloud Skills program, including an arcade game, and wrapped up her mini-project smoothly. Additionally, Rebecca celebrated her birthday, marking a personal milestone and embracing the growth that comes with it.

Nirjal Chaudhari

a third-year Computer Science Engineering student, has had a productive month. He gained valuable insights into the Allyn Committee's goals during a meeting with Allan Sir and Lynda Ma'am. Nirjal completed all required submissions and is currently focused on practical and viva exams. He successfully finished his mini-project on a Freelancing Website and is taking a Google Development Group course on cloud computing, earning badges as he progresses. With Diwali approaching, he is excitedly planning for the celebrations, looking forward to the joy and new beginnings it brings.

Vidhee Bandkar (SE COMPS)

achieved key milestones last month, including completing mini projects and viva exams. She participated in a mini marathon, enjoyed insightful moments with mentors, and celebrated Dussehra with family. Currently, she's focused on her Google Development

Group course and maintaining a Duolingo Mandarin streak.

Venu Hanumantakar (SE CSE)

This month, Venu Hanumantakar focused on completing various submissions, projects, and presentations. Although the schedule was busy, she managed to earn a few GDG badges and completed a Udemy certification in Data Structures using C. As part of her mini project, she developed a portfolio website, learning web development technologies along the way. Venu is excited about joining several organizations, including Allyn Girls, and is currently enjoying Diwali with her family. She wishes everyone a joyful Diwali!

"Empowered women empower the world. When women rise, societies thrive—breaking barriers, rewriting narratives, and creating a future where every voice is heard and every dream is possible."
