PROGRESS REPORT OF XIE FOR THE ACADEMIC YEAR 2024-25

The Institute

Xavier Institute of Engineering, run by the Jesuits (Society of Jesus) was started in the year 2005. The Institute is stepping into its Twentieth One year of establishment. For the past Twentieth years, the Institute has marched towards its goal with confidence that is based on the quality, distinction and brand image of the Jesuit educationists. The strength of the Institute comes from the inspiration and the able guidance provided by the management and the untiring efforts of our Director, Fr. Dr. John Rose SJ, supplemented by a team of dedicated faculty, staff and all our hard working as well as disciplined students.

Xavier Institute of Engineering has its own open and spacious campus at Mahim Causeway which is a centrally located place. The Institute has its own building of around 8550 sq mt built-up area consisting of class rooms, tutorial rooms, laboratories, drawing hall, workshop, computer centre and a well equipped library.

Admissions during the Academic Year 2024-25

First Year and Direct Second Year Engineering admissions for the A.Y. 2024-25 were carried out as per the AICTE's norms and State Government's MH-CET admission cell rules and regulations. All the seats of First Year and Direct Second Year Engineering were full. There is no vacant seat for this year. Institute level admissions were carried out in the Institute, in accordance with the rules and regulations of the State Common Entrance Test Cell, Maharashtra State, Mumbai.

The advertisements for Institutional level admissions were published on 27th July, 2024 in all the leading newspapers. After the advertisement the forms were issued. The quota for the various categories remained the same as it was in the previous year i.e., 51% Minority, 29% CAP and 20% Institutional.

The statistical information on the First and Direct Second Year Engineering admissions is as follows:

Library

Education has undergone a tremendous change over the years with the inclusion of new concepts as well as the influence of technology driven applications. The task of fulfilling the mission of the Institute can only be realized, if the library is equipped with reading materials that give information on emerging trends in technologies while designing the products and services to satisfy according to the user needs. XIE library strives to provide these facilities of reading materials in addition to the Digital Library available in the Institute.

XIE Digital Library

The XIE library subscribes to one of the major e-resources namely:

IEEE E-journal is taken from EBSCO (Elton B. Stephens Co.) International Incorporation (www.ieee.org/digitalsubscriptions) which is renewed (from January 2024- December 2024), at a cost of Rs. 6,47,768/- as yearly subscription. The XIE Library has subscribed to E-books as well. The XIE Library has subscribed to DELNET database for e-books & e-journals. This resource is Remote based and can be accessed from any computer within the campus and outside the campus. With a view to making maximum use of the available e-resources at XIE, a Digital Library is also provided, which uses 10 Computers (Dell machines with Ubuntu, an Open-source software platform of Linux to eliminate the risk of virus attacks). However, as per AICTE conditions, we need to add 15-20 more computers. The procedure of purchasing / allocating these computers are going on.

Web OPAC – The XIE library is automated and uses SLIM 21 (System for Library Information and Management). It is available to the faculty and students through an online catalog - Web OPAC (<http://libserver/w27/>).

XIE Moodle server / ERP

The Institute has a Moodle server – <http://moodle.xavier.ac.in>, as well as ERP. The library staff have been actively involved in uploading the Syllabus, and the Question papers as well as assignments. In addition, the library provides links to e-resources, library services like new arrival, content list and faculty research publications through the moodle server/ERP.

Library Statistics

Total no of book titles available - 4936.

Total no of book Volumes available – 13791

Total no of E-books - 10683

In addition, the library provides reprographics and scanning services to all our faculty and students. The Reading room and the Reference section put together has a total seating capacity for 150 readers. The library has subscriptions to 24 printed periodicals and 197 e-journals.

The Institution has created the most modern facility for conducting "Training and Placement" of our students. The centre has all the infrastructure including the latest communication facilities such as broadband and internet connection. It also has TPO's office, control room, Interview rooms, Group Discussion room, Conference room and Seminar room for conducting Pre Placement Talks (PPT).

The selection process for the A.Y. 2024-25 batch was started from July 2024. The companies that visited our Institution are Arcon, Capgemini, Seclore, Godrej infotech, LTI Mindtree and many others.

Out of the 121 students registered for placements this year, around 80 students are actively participating in the recruitment process, while others have chosen to pursue higher studies, showcasing the diverse aspirations of our students.
