With the motive of making students get the knowledge on the components and the wonders of a Computer and other processing units, a workshop on “**COMPUTER ASSEMBLY**” was conducted for all students of Xavier Institute of Engineering (XIE) on 20<sup>th</sup> March, 2023.

The workshop was created and hosted by Siddharth Bandal & Harshvardhan Gupta under the banner of Computer Society of Xavierites with the guidance of Prof. Jyotsna More and Prof. Teena Varma. The resource person were Mr. Dharmaraj Stalin and Mr. Rimson Saviour

In the workshop, a detailed explanation was given on the terms and concepts related to Computer, its hardware components and the types of wires used in the computers and their functionalities.

the speaker then went on to disassemble a CPU to show the various components and their various functionalities. And then the students were demonstrated on how to assemble a computer step by step.

It was an interactive session where the speaker cleared and went through the doubts of the participants. After the feedback session, the event ended on a positive note.

## **Student Feedback and Benefits:**

The overall response of the event was positive. Students were able to realize how important Computer assembly and knowledge of various computer components is and through live assembly session they came to know how and where each component fits. The event was successful and everyone enjoyed the event and parted with useful knowledge.
