28

On September 22nd 2022, Web Design Hackathon was conducted at XIE Computer Center, commencing from 3:30 pm. A total of 28 participants from each year and each branch participated in the hackathon. The aim of the hackathon was to develop interest in students for front end Web Development and gain knowledge in competitive coding.

Principal Dr. Y. D. Venkatesh inaugurated the event with wise words and encouraged students for hackathon. Gaurav Vengurlekar and Aditi Satam hosted the event and shared the problem statement with students from SE, TE and BE respectively. Total time limit of 45 minutes was given to all the participants for creation of web page and to display the page. All the students actively participated in the event making the competition extremely challenging and fascinating.

Prof. Kavita Jain, Prof Martina Dsouza and Prof. Sayali Mane judged the entire competition and Winners of the event were announced. Saish Rane from SE, Mrunal Vaidya and Osama Shaikh from TE and Pratik Bhadane from BE were declared as winners of Web Design Hackathon 2022.All the winners received a cash prize of Rs 1000/- and Winning Certificate and all the participants received Certificate for Participation.
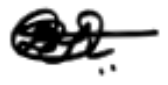

Student Feedback and Benefits

The overall participation for this event was positive. Students from all the years developed interest in Web Development and competitive coding. Students can successfully implement this knowledge in their projects. The hackathon was success and all the participants enjoyed taking part in the event
