Mr. Asad Shaikh

Time & Venue:

03:30 PM onwards

MAC LAB

No of Participants: 30

The Computer Society of Xavierites (CSX) recently hosted an enlightening workshop on Android app development, aimed at empowering students with essential skills for creating modern mobile applications.

The speaker for the workshop was **Mr. Asad Shaikh** from BE-COMPS. The event coordinated by **Mr. Ponvishal Nadar** and **Mr. Shreyash Gardi** under the guidance of CSX faculty **Prof. Jyotsna More, Prof. Teena Varma and Prof. Nilambari Narkar.**

The workshop commenced at 3:30 pm on February 16, 2024, at the MAC Lab. The session was divided into two parts, mirroring the structure of the Flutter workshop. In the first part, Asad elucidated fundamental concepts of Android development through a well-prepared presentation. Participants gained insights into app architecture, user interface design, and other key components.

The second part of the workshop focused on practical implementation, wherein participants engaged in hands-on exercises guided by Asad. Attendees learned how to apply theoretical concepts to real-world scenarios, culminating in the creation of basic mobile applications. Throughout the session, Asad encouraged interactive discussions, providing participants with opportunities to ask questions and seek clarification.

The workshop concluded with **Mr. Ponvishal Nadar** expressing gratitude to all participants for their active involvement and enthusiasm.

Student Feedback and Benefits:

The overall response to the workshop was positive. The workshop helped participants gain knowledge of the Android app. The participants were able to understand about widgets and properties making them able to create a simple project. The event was successful and helped to provide knowledge to all participants.
