

XAVIER INSTITUTE OF ENGINEERING

A sister institute of St. Xavier's College

Computer Society of Xavierites

Mobile Application Development using Flutter

Date: 25/02/2025

Faculty Convener:
Prof. Sulochana Devi

Faculty Coordinator:
Prof. Nilambari Narkar

Event Coordinators:
Mast. Siddhesh Tambe
Mast. Sarvesh Dabholkar

Class and Departments:
FE, SE, TE, BE
Comps, IT

Time and Venue:
3:30 PM onwards
Computer Center,
1st floor.

Participation:
32 students

The Computer Society of Xavierites conducted an engaging session, 'Mobile Application Development using Flutter' on 25th February 2025. This interactive workshop was designed to familiarize students with Flutter.

The event was organised by **Mast. Siddhesh Tambe** and **Mast. Sarvesh Dabholkar** under the guidance of **Prof. Nilambari Narkar** and **Prof. Sulochana Devi**. It was open to students from all years.

The session started with a theoretical understanding of flutter, the prerequisites, and the applications of the same. Soon after, the session moved on to hands on coding using an online editor (zapp.run). Here, the participants coded along with our speaker as he explained each line of code to them. In the end, they were successful in making an app with basic functionalities. This proved to be a stepping stone for further application development ventures of the participants.

The event saw attendance from 32 students from across IT, and COMP and from all years.

Student Feedback :

The response from the participants was immensely positive. They enjoyed learning something new, which would help them in their academics and future projects.
