

DATE: 31/10/2020

This was the first event of CSX for year 2020 which was inaugurated in the presence of our director Fr. Dr. John Rose S.J. and principal Dr. Y. D. Venkatesh. Both spoke a few kind and motivating words for encouraging the students before the start of the event. After the inauguration Prof. Jyotsna More gave an introduction about CSX committee.

As the amount of data continues to grow exponentially and it becomes more and more complex to manage and extract data, also with this comes immense pressure handling, so with a motive to introduce students to manage large amount of data CSX organized a webinar on Enterprise Data Strategy.

Prof Teena Verma introduced the speaker of the webinar Mr. Melvin Pereira who is currently working as a Senior Manager in Process and Technology at Microsoft.

The webinar was conducted to give information on how actually the data is managed in enterprises and what are the complications involved while doing so. This will help students to visualize how actually the data is managed in real world. This will improve their practical knowledge.

The speaker introduced himself and took us through his professional journey of life. He shared various new things he learnt and the skills that helped him throughout his journey. He also discussed about various difficulties one faces while working with big set of data and discussed many situations one could face. He also put forth many complications that might arise while dealing with data. Various business problems that are faced while managing the data, obtaining the reports and analysis of the data and details about various technologies used to solve such problems were also highlighted during the webinar.

The event took place online on Zoom meeting application. A total of 102 students participated in this event each of which were given an e-certificate for the same.

## Student Feedback and Benefits

Students got to know about the concept of how to manage a large amount of data in enterprises which will really help them to visualize how industries work.

# Professional Journey

- Education
  - ✓ BE – Computer Engg., SFIT, 2005
  - ✓ MS-Management Info System, 2009-2010
- Work Experience
  - ✓ Insurance Company, Software Developer, 2006
  - ✓ Xavier Institute of Egg., Lecturer, 2007-2009
- Work Experience
  - ✓ UBS Financial Services - Internship, 2010
  - ✓ Ernst & Young, Technology Consultant, 2011-2012
  - ✓ UBS Financial Services, Technology Analyst, 2012-2013
  - ✓ Hilton Worldwide, Technology Manager, 2013-2017
  - ✓ Microsoft Corporation, Sr. Mgr., 2017 – till date

# Business Problem

## Situation

- Multiple data sources
- Huge data volume
- Country/state specific compliance report filling requirements
- Lack of central repository of data

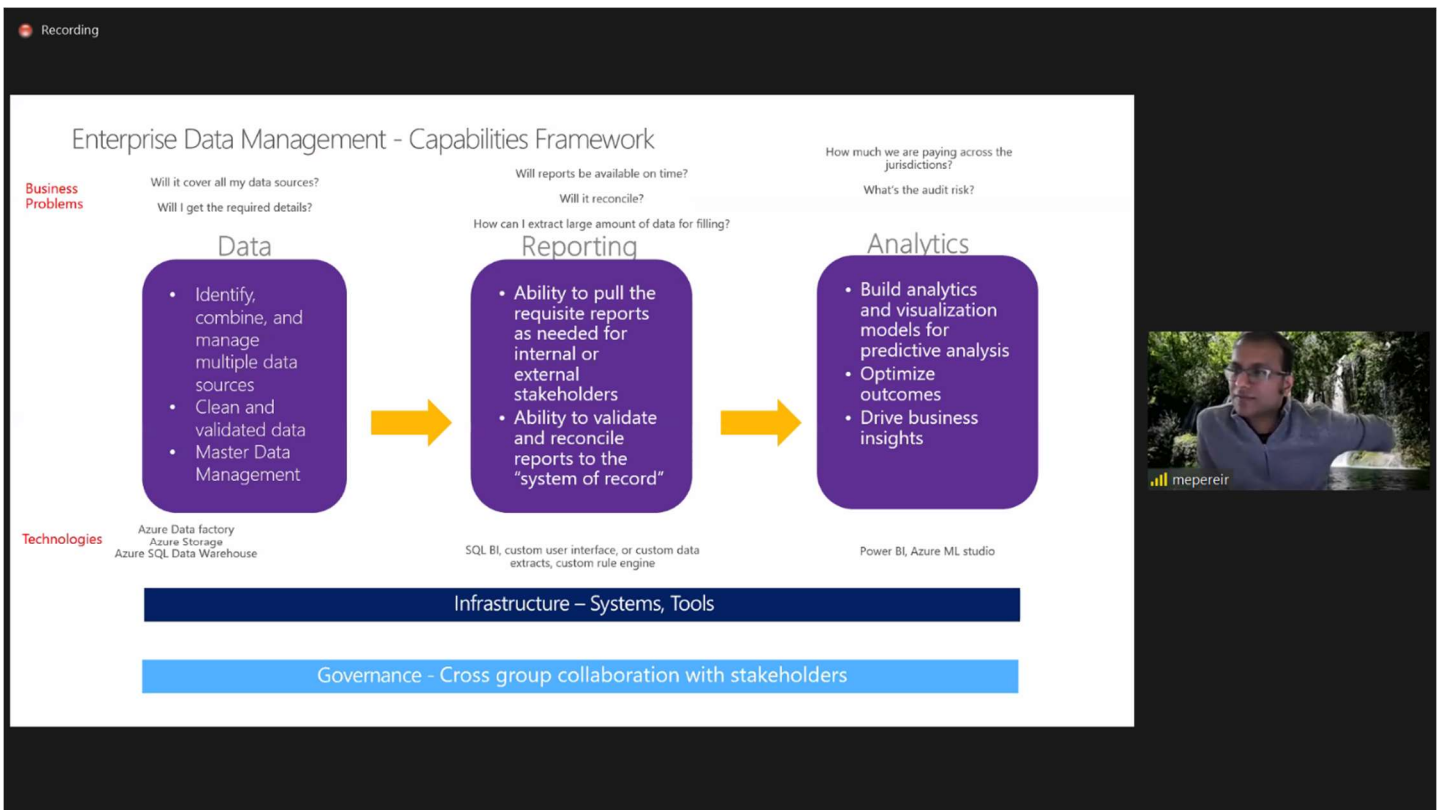

## Complication

- Each data source contains varying level of details
- Short lead time – data availability to load to reporting
- Data Quality

## Resolution

?

Zoom Meeting

Recording

Participants: Reetik Gupta, Divya Kulkarni, SE\_IT\_201903..., Bhavin Jain

**Chat**

- From Divya Kulkarni to Everyone: 12:03 PM  
Please share your doubts..
- From EXTC\_39\_M Patil to Everyone: 12:04 PM  
Sir why you choose MIS than any Masters in any field?  
How it different from others field?How you feel by doing different from others people's?
- From Comps\_22\_Swarangi to Everyone: 12:06 PM  
Kindly fill in the feedback form for the session, this will be also counted as your attendance in order to receive your certificates:  
<https://forms.gle/xGkRmNV2WBmBxm1i9>
- From Rachael Manjaly to Everyone: 12:06 PM  
Do you prefer taking a break from studying... work and then do masters?
- From A\_Rahula\_ to Everyone: 12:08 PM  
since both power bi and ms azure are paid how can a regular student gain handson on this platform?
- From Tejas\_P to Everyone: 12:10 PM  
sir for Data visualization is Tableau Desktop good..? or I should Learn Power BI also..?

To: Everyone
