XAVIER INSTITUTE OF ENGINEERING
A SISTER INSTITUTION OF ST. XAVIER'S COLLEGE

# Treasure Hunt

DATE: 28/02/2021

**Event Coordinator(s)**

**1. Prof. Jyotsna More**

**2. Prof. Teena Varma**

**Student Coordinator(s)**

**1. Monika Anabathula**

**2. Riya Sawant**

**3. Divya Kulkarni**

**Time & Place:**
2:00 to 4:30 pm

Google Meet platform

**Department: COMPS, IT**

**No of participants: 24**

Coding is accepted as an significant part of IT Industry, to have a mix of the classical games played from centuries, an event with the motive of encouraging students to explore the vast world of competitive coding, the computer society of Xavierites planned an event to help unleash the hidden potential and the awaken the detective mind within.

The Event was planned and organized by Riya Sawant, Monika Anabathula and Divya Kulkarni under the banner of the Computer Society of Xavierites under the guidance of Prof. Jyotsna More and Prof. Teena Varma.

The event was conducted in two different sections for FE and SE, TE, BE respectively. It was a time-bound activity. The students were provided with a set of passwords-protected files for which the passwords needed to be decoded to gain the access to another question, unlocking the questions at each level via the output gained from the previous one, each output having a score, the team to gain maximum profit of marks using various strategies was declared as the winner.

These students participated in groups, demonstrated the ability of cognitive abilities, group work and clue solving strategies. Working against time, and sportsman ship spirit the groups completed well, giving a tough competition. The best of all depending on various parameters like the competition od code, working of test cases and many more, the winner was finally declared.

Top three winners from FE and SE, TE, BE was awarded with cash prize and achievement certificates. All participated students were given participation certificates.

**Student Feedback and Benefits**

The overall response of event was positive. Students were able to realize their strengths and weakness in core basics of programming languages. Finally, event was successful and enjoyed the event with a blend of decoding and fun of adventurous ride of codes.
