The event was made successful by the team efforts of The Xavier Institute of Engineering Director Fr. Dr. John Rose SJ, Principal Dr. Y D Venkatesh, IET Delegates Mr. Ajay Salariya and IET Mumbai LN Chairperson Mr. Vimal Choubey, XIE-IET On Campus Convener Dr. Vaishali Gaikwad, organizing and volunteer's team.

The challenge statements of our west zone are:

A. **Effect of ground water depletion. What is the future?**
B. **Does disposed batteries of EV Lead to more chemical waste and pollution in near future?**

The guidelines for eminent judges:

- Each participant will present a novel technological solution to solve the challenge. Judges will fill the scoring sheet and sign it for each student
- When judge evaluate the presentation, please do consider technical skills demonstrated, leadership skills as well as presentation skills.
- The scoring sheet provided has detailed parameters of each area which judge can mark the students on. The scoring guide is mentioned on the topmost part of the sheet.
- The participants will give the presentation in 10minutes and you will have 10 minutes for the question answer segment. We have instructed the students to adhere to this timeline. We would request judge to keep the question-answer segment for 10 minutes and not more
- We always encourage our jury to provide constructive feedback to the student to make their presentation better. Please feel free to share any tips you feel is necessary for the students to do better post their presentations.
- Judge will be part of a judging panel, with at least one co-judge. While it is OK to discuss each presentation with your co-judge, we advise that you score each student independently, before discussing your views once the student has left after presenting. This helps keep the scoring neutral and unbiased.
- An IET volunteer will be present during the student presentations with you. Please do not hesitate to reach out to him/her in case you need any help during the session

Important instructions for the participants:
- Your presentations will be evaluated on technical and leadership potential.
- It is expected that presentation must be a 'technological solution' to the problem posed and not a managerial or administrative solution. If you have referred to content, ideas, concepts etc., please attribute them to their deserving sources.
