Title of the event: TECHNOVA – A 24-Hour Hackathon Event Date: 25th January – 26th January 2025

Event Coordinators: Prof. Suvarna Aranjo & Dr. Vaishali Gaikwad

Details of Guest:

Judges Name	Description
Mr. Vimal Chaubey	Data Engineer at Tata Croma with 9+ years of experience in Data Science, IT Automation, and Cloud. Chairman of IET Mumbai Local Network. Former Senior Consultant at Capgemini and Solution Architect at TCS. Holds multiple Azure certifications and co-inventor of three patents. Recipient of the Paul Fletcher Medal. Passionate half-marathon runner.
Dr. Madhuri Narendra Gedam	Dean R&D at Shree L.R. Tiwari College of Engineering, Mira Road, with 15.5 years of experience. Published 35+ papers in national and international journals. Best paper award recipient at Nashik 2019. High-Performance Computing (HPC) Master Trainer.
Keyur Modh	Senior Software Developer at Quantiphi. Skilled in Python, Java, SQL, HTML, and CSS. Key contributor to projects like 'Ikigai-A Blogging Website' (Laravel) and 'Handwritten Text Recognition.' Former SOC Analyst Trainee at CRS. Strong communication and presentation skills.

Grandel Dsouza	Experienced Software Support Engineer in the computer software and online advertising industry. Skilled in Python, JavaScript, Web Development, PHP, Communication, and Creativity. Holds a Bachelor of Engineering in IT from Xavier Institute of Engineering.
Aditya Bohade	Technical Analyst at Mouthshut.com.
Prateek Pandey	Sr Principal Engineer, Wissen Technology. MTech in Data Science and Engineering from BITS Pilani
Yoogandhara Patil	Designation- Senior Software Engineer Organization- Clover Infotech Pvt Ltd
Ranjan Chaubey	Senior software engineer, Wissen Technology

Objectives:

- To foster innovation and collaboration among students.
- To provide a platform for solving real-world challenges.
- To encourage technical skill development in Web Development, App Development, and AI/ML.
- To promote teamwork, problem-solving, and presentation skills.
- To offer mentorship and guidance from experienced judges and mentors.
- To create a competitive yet engaging environment for participants.
- To ensure smooth event execution with structured workflows.

Description:

The Xavier Institute of Engineering in collaboration with IET XIE On Campus, successfully hosted an exhilarating 24-hour hackathon from January 25th to 26th, 2025. The event brought together innovative minds to collaborate and develop solutions for real-world challenges across three major domains: Web Development, App Development, and Artificial Intelligence & Machine Learning (AI/ML). With a competitive spirit and an inspiring atmosphere, the hackathon proved to be a grand success.

The hackathon commenced on January 25th at 9:00 AM with the registration process. Participants were verified with their college ID cards and identification numbers. Upon successful verification,

they were issued hackathon ID cards and food coupons. The inauguration took place from 10:00 AM to 11:00 AM, where the esteemed chief guest, Mr. Vimal Chaubey, who also served as the judge for the AI/ML round, was warmly welcomed. During the ceremony, participants were briefed on the event's structure and the designated locations for each domain. Web Development was held in the Library & Blockchain Lab on the first floor, App Development was conducted on the third floor, and AI/ML took place on the fourth floor. The problem statements for each domain were released the night before, on January 24th, giving participants ample time to strategize and choose their challenges.

Following the inauguration, the first round of coding began. Lunch was provided in stalls at 2:00 PM, organized floor-wise to maintain order. The first round resumed at 3:00 PM and continued until 6:00 PM, after which judges conducted a mentoring session from 6:00 PM to 7:00 PM. A short refreshment break followed before the participants resumed their work from 7:30 PM to 10:00 PM. Dinner was served at 10:00 PM, following the same structured sequence as lunch, after which the first round continued until midnight. Throughout the night, volunteers and organizing committee members took turns ensuring discipline and a smooth workflow.

During the early hours of January 26th, a special refreshment and music hour was held in the Seminar Hall on the first floor from 2:00 AM to 4:00 AM. The first round resumed at 4:00 AM and continued until 7:30 AM, after which breakfast was served in stalls. By 8:30 AM, the judges arrived to evaluate the participants' work. After rigorous assessment, four teams from each domain were selected, bringing the total to twelve teams. The remaining teams were eliminated. The judging panel included Ranjan Chaubey, Yoogandhara Patil, and Grandel R. Dsouza for Web Development; Vimal Chaubey and Prateek Pandey for AI/ML; and Aditya Bohade, Keyur, and Dr. Madhuri N. Gedam for App Development.

For the final round, which commenced at 11:30 AM, the top 12 teams engaged in continuous coding and prepared their PPT presentations. The presentation round took place from 1:30 PM to 4:00 PM, where the judges evaluated the final projects. At the conclusion of the event, the results were announced, and the hackathon ended with gratitude extended to all participants, judges, and organizers.

The 24-hour hackathon was a resounding success, fostering creativity, teamwork, and problem-solving skills among participants. The event not only challenged students but also provided them with a platform to showcase their technical prowess. We extend our heartfelt thanks to all the participants, mentors, and organizers who made this event a remarkable experience.

List of all the participants:
