Seminar Hall,

Xavier Institute of
Engineering

Mahim-Mumbai

Department:

IIC-IPR Activity Cell

(All Depts- EXTC/IT/COMP)

No. of Participants:

306

A seminar on the topic "*Patent Filing*" was organized for all the students and it was delivered by Dr. Kranti Ghag, Associate Professor, DJ Sangavi College of Engineering Mumbai. Dr. Kranti Ghag has pursued Intellectual Property courses from Rajiv Gandhi Institute of Intellectual Property Management and World Intellectual Property Organisation. She has 9 copyrights registered as an applicant. She has delivered seminars and conducted various workshops related to Intellectual Property that involves identifying IP, drafting, filing and discrepancy handling. She has coordinated and was resource person for the orientation for the subject Intellectual Property Right and Patenting, which is an institute level elective offered by Mumbai University in final year 8th Semester.

The seminar was conducted on 23rd September 2022 and was organized by Ms. Sushama Khanvilkar (IPR Cell Activity Coordinator), under the banner of XIE-IIC-IPR Cell. The seminar began with welcome of speaker then, prayer, followed by felicitation of the speaker by Prof. Vijay Kapure, IIC President & HoD (ASH).

Approx. 300 students attended the seminar and the objective of it was to provide an insight to the students about patenting process and make them aware about its importance in future. The speaker elaborated on how to draft a patent application and overall filing process.

The speaker also shared her views on importance of having own patents, copyrights, and the overall process with sample documentation.

The session was very interactive and well-organized with real-life copyright examples. The students were quite impressed the way the speaker explained the overall process of patent filing.

The session ended with vote of thanks by Dr. Bhagyashree Chari, IIC Convener. The IPR student coordinators Aniket Badgajar and Simran Tiwari alongwith their student members showed lots of enthusiasm in making all arrangements to execute this event successfully under the guidance of faculty members..

Student Feedback and Benefits: The students found the session very informative, interesting and motivating for students to explore their ideas and convert into patent/copyright. It was a really knowledge gaining session.
