EXTC Department	0
IT Department	15
Inter College	2
Total	29

BUILDING THE GATEWAY

The Building the Gateway event, organized by the Technical Committee of the Student Council under Transmission 2024 (Annual Technical Fest) at Xavier Institute of Engineering, took place on second day of Transmission i.e on January 19, 2024, at 1st floor, Computer Centre, from 11am to 4pm. The event aimed to harness technology to create a comprehensive application to address the the given topic, develop fully functional applications encompassing frontend, backend, and storage components.

11:00 AM: Introduction and Theme Briefing:

- The event kicks off with an introduction to the hackathon format and an overview of the theme, Drug Deaddiction System. Participants are briefed on the objectives, guidelines, and judging criteria for the competition.

11:15 PM: Ideation and Planning Phase:

- Teams brainstorm ideas and devise a plan for their application. They identify key features, design the user interface, and outline the backend architecture required to support their solution.

12:00 PM: Development Phase Begins:

- With their plans in place, teams dive into the development phase. Frontend developers work on crafting intuitive user interfaces, backend developers implement the necessary functionalities, and database specialists set up storage systems to manage user data securely.

3:30 PM - Implementation and Testing:

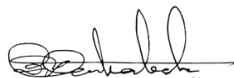

- Teams continue to work on implementing their solutions, rigorously testing each component to ensure functionality and reliability. They troubleshoot any issues that arise and fine-tune their applications for optimal performance.

4:00 PM: Presentation and Judging

- Each team presents their application to the panel of judges, demonstrating its features, functionality, and relevance to the theme of Drug Deaddiction System.
