CODE CRAFTERS

Event Details	
Event Type	Intra
Event Co-ordinator	Technical Committee
Judge	Technical Committee
Venue	Computer Centre
Date	07th October 2023
Time	11:00 a.m.

Participation Details	
Participation Type	Duo
Comps Department	6
CSE Department	11
EXTC Department	18
IT Department	32
Inter College	-
Total	67

CODE CRAFTERS

The "Code Crafters" event was an exhilarating intra-college hackathon exclusively for SE (Second-Year Engineering) and TE (Third-Year Engineering) students organized by Technical Committee of Student Council of XIE, it was held on October 07, 2023 in Computer Centre, 1st floor. This multi-round competition was designed to test the participants' coding skills, debugging abilities, and problem-solving expertise across three challenging rounds. Both SE and TE students were judged separately based on different rubrics, ensuring a fair and competitive environment.

Round 1: Fastest Finger First
- Time: 10 minutes
- The first round was a rapid-fire MCQ solving session where participants had to answer 35 multiple-choice questions (MCQs) within a strict 10-minute timeframe. This round tested their quick thinking and foundational knowledge in their respective domains.

Round 2: Debug the Code
- Time: 20 minutes
- In the second round, participants were provided with five code snippets that contained errors. Their task was to debug these snippets using only the terminal, as the use of Integrated Development Environments (IDEs) was strictly prohibited. This round evaluated their debugging skills and familiarity with command-line tools.
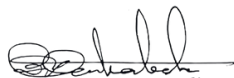

Round 3: Code It Out
- Time: 2 hours
- The final round required participants to develop a full-fledged application based on a given problem statement. Unlike the previous round, IDEs were allowed in this stage. This round tested their ability to design, code, and implement a complete solution within a two-hour window.

The winners were determined based on their cumulative performance across all three rounds. Separate winners were announced for SE and TE categories, recognizing the top performers who demonstrated exceptional coding skills, speed, and problem-solving abilities.
