Event Co-ordinator	Mr. Jayesh Kakade
Judge	-
Venue	Turf
Date	18th January 2024 - 20th January 2024
Time	09:30 a.m.

Participation Details	
Participation Type	Solo
Comps Department	4
CSE Department	3
EXTC Department	2
IT Department	5
Inter College	2
Total	16

# HORN NOT OK PLEASE

The "Horn Not OK Please", popularly known as "Don't Touch the Wire", was a highly engaging and fun-filled full day event held over all three days of the fest on the Turf of the college itself. This event was meticulously organized by the Technical Committee of the Student Council under Transmission 2024 (Annual Technical Fest) at Xavier Institute of Engineering, the committee members designed and constructed the entire setup, including cable sirens and an Arduino sensor system. The game required participants to navigate a looped wire handle along a cable without touching it. If the loop touched the cable, a siren would sound, signaling that the participant was out.

## Participation and Experience:

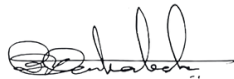

- Participants joined the event for the sheer joy and challenge it presented. The goal was simple yet demanding: to pass the loop along the cable without triggering the siren. This required steady hands, concentration, and excellent hand-eye coordination.
- The atmosphere at the event was lively and filled with anticipation. The sound of the siren brought both cheers and groans, adding to the fun. Many students participated multiple times, trying to improve their performance and beat the challenge.

## Conclusion:

The "Horn Not OK Please" event, or "Don't Touch the Wire", was a tremendous success, drawing in participants for its unique challenge and entertainment value. It provided a platform for students to unwind, test their precision skills, and enjoy the fest in a light-hearted and engaging manner.
