INTERNATIONAL WOMEN'S DAY CELEBRATION

The Xavier's Institute of Engineering celebrated International Women's Day on March 7th, 2024, with a vibrant event organized by the Women's Development Cell (WDC). Held in the Seminar Hall, the celebration kicked off at 3:30 PM, attracting a diverse audience of students, faculty, and staff eager to honour and empower women.

Attendees were treated to a series of captivating performances, including soulful singing, poignant poetry readings, and dance performance, showcasing the talent and creativity of women in the community. The highlight of the evening was the presentation of the Joan & Frank Trocki Women's Awards, recognizing outstanding achievements in research, intelligence, creativity, and academic excellence.

In addition to the artistic festivities, participants engaged in an empowering self-defence workshop led by Salil Sadaphule, equipping them with practical skills and strategies for personal safety. To keep energy levels high, snack boxes were generously distributed to students, providing a delicious treat to recharge and continue celebrating the spirit of International Women's Day. The event concluded with expressions of gratitude to the organizers and contributors who made the celebration a memorable success, fostering a sense of empowerment, solidarity, and appreciation for women's contributions in our community.
