**Title of the event: Faculty Development Program on Cyber Security for Industry 4.0**

**Event Date: 08th July – 17th July, 2024 (10 days)**

**Time: 10:30 am - 12:30 pm, 06:30 pm-8:30 pm**

**Event Coordinators: Prof. Stella J**

**No. of Participants: Professors, Research Scholars**

**Platform: Online**

### **Description:**

The Online Faculty Development Programme (FDP) on "Cyber Security for Industry 4.0" was conducted from 8th July to 17th July, 2024, organized by the E & ICT Academy at the National Institute of Technology (NIT), Warangal. Sponsored by the Ministry of Electronics and Information Technology (MeitY), Government of India, and in association with Xavier Institute of Engineering, Mumbai, this programme aimed to enhance faculty knowledge and expertise in the field of cyber security, specifically in the context of Industry 4.0.

The FDP comprised a series of technical sessions, with subject-matter experts from prestigious institutions and organizations, focusing on various aspects of cyber security, emerging technologies, and their application in Industry 4.0.

### **Objective:**

The objective of the FDP was to equip faculty members with the necessary skills and knowledge to understand the challenges, trends, and tools related to cyber security in Industry 4.0. It aimed to explore concepts like cryptography, network security, cloud security, blockchain, cyber forensics, and cyber-physical systems, which are essential in securing industrial systems and data in the current digital age.

### **Detailed Session Overview:**

#### **Day 1: 08th July 2024**

The FDP commenced at 10 am with an inaugural session that highlighted its goals and significance. This opening session set the stage for the program, underscoring the importance of cyber security in the context of Industry 4.0 and the pivotal role faculty members play in disseminating knowledge in this field. Following this, Dr. Anil presented an in-depth discussion on cryptography, a foundational aspect of cyber security. He explained encryption algorithms, the concepts of public and private keys, and how cryptographic techniques are

essential for securing data and communications, particularly in industrial settings. The session emphasized the critical role of cryptography in safeguarding sensitive data and communications within Industry 4.0. Next, Dr. Venkanna provided an introduction to cyber security, stressing its importance in protecting critical infrastructure and data. This session covered various cyber threats, security protocols, and defense strategies necessary to protect industrial systems and networks.

#### **Day 2: 09th July 2024**

Dr. Shiv Dharshan conducted a comprehensive session on network security measures, emphasizing strategies to protect industrial networks from cyber threats. He covered essential topics such as firewalls, intrusion detection systems (IDS), intrusion prevention systems (IPS), and secure network protocols, all crucial for securing industrial networks in the context of Industry 4.0. In the afternoon session, Mr. Naushad addressed the challenges and techniques for securing wireless and mobile networks, which are increasingly vital as Industry 4.0 systems depend heavily on wireless communication and mobile devices. He focused on encryption methods and security protocols designed to mitigate the risks associated with these emerging technologies.

#### **Day 3: 10th July 2024**

Dr. Shyam Kumar delivered a session on cloud security engineering, emphasizing the vulnerabilities within cloud infrastructures and best practices to secure them. He explored various security measures to protect data, applications, and services hosted in cloud environments, which are crucial in Industry 4.0 for managing and processing large-scale industrial data. In the afternoon session, he further elaborated on cloud security engineering, providing a deeper understanding of secure cloud configurations, access control policies, and threat detection and mitigation strategies, all essential for safeguarding cloud-based industrial systems. Additionally, a hands-on session on cloud security was conducted, which greatly benefited the participants by offering practical insights into implementing security measures in cloud environments.

#### **Day 4: 11th July 2024**

Mr. Sathish conducted a practical and technical session on malware analysis, where he explained the different types of malware that can impact industrial systems, such as viruses, worms, and ransomware. The session also covered malware detection techniques, reverse engineering, and best practices for defense against these threats. In the afternoon session, Mr. Naushad presented on cyber-physical systems (CPS), which combine computer-based algorithms with physical processes. He highlighted the critical importance of securing these systems, as they are fundamental to modern industrial operations, and discussed how vulnerabilities in CPS could lead to severe consequences.

#### **Day 5: 12th July 2024**

Dr. Guravaiah delivered a session on host and intrusion detection systems (IDS), explaining how these systems monitor networks and host machines to detect and respond to potential

security breaches. He discussed various techniques for identifying unauthorized access and safeguarding sensitive data from cyber threats. In the afternoon session, he demonstrated use cases of Industry 4.0, focusing on the application of cyber security measures in real-world industrial environments. He illustrated how security protocols are implemented across industries such as manufacturing and logistics to protect data and ensure seamless operations.

#### **Day 6: 13th July 2024**

Mr. Ram introduced the concept of blockchain security, explaining how blockchain technology can be leveraged to secure transactions and data in Industry 4.0 environments. He covered the fundamental principles of blockchain, its applications in securing industrial data, and how it can prevent unauthorized access or tampering of information. In the afternoon session, Mr. Ram continued his discussion on blockchain security, delving into advanced techniques and exploring real-world applications of blockchain in securing digital transactions and data flows within industrial systems.

#### **Day 7: 14th July 2024**

Mr. Naushad presented the IEC 62443 Cyber Security Standards, which are vital for securing industrial automation and control systems. He explained the framework's guidelines for ensuring the safety and reliability of industrial systems by preventing cyber threats and maintaining operational continuity. In the afternoon, Dr. Padmavathy addressed cyber security in critical infrastructure, focusing on securing systems essential to industries such as power plants, water supply, and transportation. She discussed risk management strategies and techniques to protect these crucial systems from cyber threats, ensuring their resilience and smooth operation.

#### **Day 8: 15th July 2024**

Dr. Hiren V. Nath introduced cyber forensics, the science of investigating cybercrimes. He explained the various tools and techniques used in cyber forensics, with a particular focus on how they can be applied to detect and address cyber incidents in industrial environments. In the afternoon session, he continued with a discussion on advanced techniques in cyber-crime investigation, exploring sophisticated methodologies used to investigate and resolve cyber incidents. The session also emphasized the legal aspects of cyber-crime investigations and the critical importance of maintaining evidence integrity throughout the process.

#### **Day 9: 16th July 2024**

Dr. Hiren V. Nath continued his exploration of advanced cyber-crime investigation techniques, focusing on methods used to track cyber criminals and analyze digital evidence. He delved deeper into digital forensics, explaining the processes and tools used to recover and analyze digital evidence from electronic devices and networks. Dr. Nath emphasized how digital forensics is crucial in securing industrial systems from cyber-attacks. Additionally, a hands-on session on File Scraping was conducted, providing participants with practical experience in extracting and analyzing data from digital files to support cybercrime investigations.

## Day 10: 17th July 2024

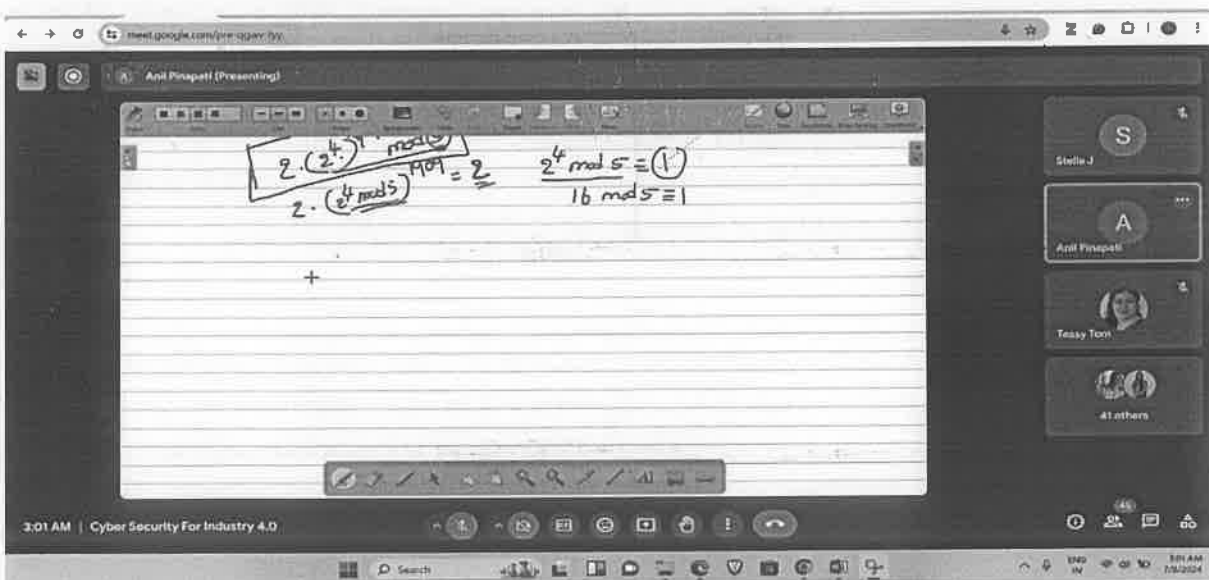

Dr. Padmavathy concluded the discussion on cyber security in critical infrastructure by summarizing the key points and strategies for protecting both industrial and governmental infrastructures from cyber threats.

The program culminated with the Valedictory session, where participants had the opportunity to reflect on the valuable insights they had gained throughout the FDP. An online assessment was conducted to evaluate participants' understanding, followed by the collection of feedback to enhance the quality of future FDPs.

 and  
 XAVIER INSTITUTE OF ENGINEERING, MUMBAI

## Participation Certificate

This is to certify that **Sainath Tukaram Patil**, Assistant Professor  
 from **Vidyavardhini's College of Engineering & Technology**  
 has participated in a 40 hours Faculty Development Programme on "Cyber Security for Industry 4.0" sponsored  
 by Ministry of Electronics and Information Technology (MeitY), GoI organised by E&ICT Academy, NIT Warangal  
 and Xavier Institute of Engineering, Mumbai during 8<sup>th</sup> July - 17<sup>th</sup> July, 2024.

She / He has successfully completed all the requirements for completion of the programme.

  
**Prof. Stella. J**  
 Coordinator  
 XIE Mumbai

  
**Prof. R. Padmavathy**  
 Coordinator  
 NIT Warangal

  
**Prof. P. Sreehari Rao**  
 Chief Investigator  
 E&ICT Academy, NIT Warangal

  
**Prof. Bidyadhar Subudhi**  
 Director  
 NIT Warangal

Sample Certificate of the Participant of FDP program Cyber Security for Industry 4.0

  
 18/7/2024

**Prof. Stella J**

**NATIONAL INSTITUTE OF TECHNOLOGY**  
**WARANGAL – 506004, TELANGANA STATE – INDIA**

**Guidelines to host an online FDP in association with  
Electronics & ICT Academy, NIT Warangal**

1. Minimum number of Participants should be 50 and maximum of 100 participants are permitted.
2. Speakers and Lecture Schedule will be identified by the coordinator from NIT Warangal in consultation with coordinator from your college.
3. Academy will meet all the expenses of the speakers (accommodation, honorarium, food etc.)
4. There will be a registration fee of Rs. 750 per participant for faculty and Rs. 2250 per participant for industry participants for 40 hours FDP.
5. Research scholars are allowed for each FDP up to maximum of 5% of the strength.
6. FDPs will be conducted only 4 hours per day so that participants at host institute can attend their normal work other than this span of 4 hours. Hence total duration of 40 hours online FDP is 10 days and equivalent to one week FDP.
7. If you need any further details, Please contact us on [eict.nitw@gmail.com](mailto:eict.nitw@gmail.com).
8. Budget and other details will be sent to you by email once your FDP is approved.

**APPLICATION FORM**

Name of the Institution	XAVIER INSTITUTE OF ENGINEERING		
Address of the Institution	MAHIM CAUSEWAY, MAHIM, MUMBAI, MAHARASHTRA - 400016		
Name(s) of the FDP(s)	1.	SECURE CLOUDOPS	
	2.	CYBER SECURITY FOR INDUSTRY 4.0	
Preferable Dates to conduct the FDP	1.	10/06/2024 - 20/06/2024	
	2.	18/06/2024 - 27/06/2024	
	3.	25/06/2024 - 04/07/2024	
Do you accept for all the guidelines given above	Yes	<input checked="" type="checkbox"/>	No <input type="checkbox"/>
Coordinator Name	STELLA J.		
Designation	ASSISTANT PROFESSOR		
Department	INFORMATION TECHNOLOGY		
Email Id	stella@xavier.ac.in		
Ph. No	Landline	-	Mobile 8778076008

Place: Mumbai  
Date: 23/02/2024

Signature of Principal / Head of Institution  
(With seal)

## Registration and Budget details for Cyber Security for Industry 4.0 FDP

EICT NITW <eict.nitw@gmail.com>

To: Stella J <stella@xavier.ac.in>, PADMAVATHY R <rpadma@nitw.ac.in>

Mon, Mar 4, 2024

Dear Sir/ Madam,

As per the request letter sent from your college, your course is approved and you need to plan the programme and prepare the brochure and lecture schedule as soon as possible and send it to e-mail: eict.nitw@gmail.com to publish on the website.

I am also giving below the contact details of coordinator(s) and email address(es). Please contact the coordinator from NIT Warangal to plan the FDP.

Cyber Security for Industry 4.0	1. Prof. R. Padmavathy, Dept. of CSE, NIT Warangal Email: rpadma@nitw.ac.in Ph. No: 9381265691 2. Stella. J, Dept. of IT, Xavier Institute of Engineering, Mumbai Email: stella@xavier.ac.in Ph. No: 8778076008	25th June - 4th July, 2024	Online
---------------------------------	--	----------------------------	--------

Please find the attached documents for the instructions, Participant List format.

Thank you

 Online Mode - Instructions.docx  
18K

## Online Mode

### **Terms and conditions for organizing Online FDPs:**

**1. Registration details:**

- For faculty/research scholars: Rs. 1000 for 40 hour FDPs.
- Research scholars are allowed for each FDP up to maximum of 5% of the strength.
- No complimentary registrations

**2. Please note that if the number of participants is below 50, the programme should be cancelled.**

**3. Maximum of 100 participants are permitted to enroll for an FDP as monitoring, responding to the questions, doubts beyond that number is difficult for the speaker.**

**4. It is decided to conduct only 4 hours per day so that participants at host institute can attend their normal work other than this span of 4 hours. Hence total duration of 40 hours online FDP is 10 days and equivalent to one week FDP.**

5. Platform through which resource persons and participants are connected will be provided by the academy.

6. Laboratory sessions/demo can be online or conduct at the host institute under online monitoring and guidance of the concerned resource person.

7. Honorarium bill (filled in complete with signatures of resource person) along with NEFT Form and a copy of PAN card should be collected by the coordinator from each resource person.

**8. Printing of certificates and posting will be done centrally at the academy and coordinator can take the help of office of E&ICT Academy in this regard.**

**9. The following are approved budget details for online FDPs.**

<b>Budget for 40 hours Programme</b>		
<b>S. No</b>	<b>Particulars</b>	<b>Approved expenditure</b>
1	Honorarium for resource persons @Rs.2,000/- per hour	Rs.80,000
2.	Material preparation expenses @ Rs.500/- per hour	Rs.20,000
3	Travel, Food and accommodation expenses for resource persons	NIL
4	Certificates Printing and postage expenses and Any expenses in providing online platform for delivering teaching, demo	Upto a maximum of Rs.5,000*

\*- Includes Rs. 2000/- Secretarial Assistance Overhead from Academy

## ONLINE FACULTY DEVELOPMENT PROGRAMME (FDP)

on

### Cyber Security for Industry 4.0

(08<sup>th</sup> July – 17<sup>th</sup> July, 2024)

Organized by

E & ICT Academy, National Institute of Technology, Warangal

In association with

Xavier Institute of Engineering, Mumbai University, Mahim, Mumbai

(Sponsored by Ministry of Electronics and Information Technology (MeitY), GOI)

#### Preamble:

Electronics & ICT Academy" was set up at NIT Warangal with financial assistance from MeitY, GoI. The jurisdiction of this academy is Telangana, Andhra Pradesh, Karnataka, Goa, Puducherry and Andaman & Nicobar Islands. This academy's role is to offer Faculty Development Programs instandardized courses and emerging areas of Electronics, Information Communication Technologies, training & consultancy services for Industry, Curriculum development for Industry, CEP for working professionals, Advice and support for technical incubation and entrepreneurial activities.

#### About the FDP:

The Faculty Development Program will help to disseminate the knowledge in the domain of Cyber Security. It empowers the participants to understand how Cyber Security can be used to innovate and improve the security process and Real time applications. The participants will be trained with hands-on approach in order to have an in-depth insight into the domain of Cyber Security and expose them to Feasibility & future scope.

#### Major Course Contents:

- ❖ Understanding Industry 4.0
- ❖ Introduction to Cyber Security
- ❖ Network Security Measures
- ❖ Vulnerability Assessment and Penetration Testing
- ❖ Cloud Security Engineering
- ❖ Wireless Network Security
- ❖ Software and Web Application Security
- ❖ Malware Analysis
- ❖ Cyber Physical System Security
- ❖ Introduction to Cyber Forensics
- ❖ Eminent Techniques in the Cyber Crime Investigation
- ❖ Introduction to Digital Forensics
- ❖ Introduction to Ethical Hacking
- ❖ Introduction to AWS
- ❖ Hands-on: Deploying Application on AWS
- ❖ IoT Security
- ❖ AI and Machine Learning Security
- ❖ Blockchain Security

#### Resource Person for the Programme

The program will be conducted by the faculty members from NIT Warangal; Academicians in the concerned field from IITs/NITs/IITs are invited to deliver lectures in the program. Speakers from industries are also expected to deliver as part of the course.

#### Registration Fee Particulars:

Faculty and Research Scholars	Rs.1000/-
Industry Participants	Rs.3000/-

Participants need to pay the Registration Fee Online using the following details,

#### Online Transfer Details

Account Name: **Electronics & ICT Academy NITW**  
Account No: **62423775910**  
IFSC: **SBIN0020149**  
Bank and Branch: **State Bank of India, NIT (REC) Warangal**

#### How to apply:

Participants are required to fill the online registration form by clicking on the following link: <https://forms.gle/ZyJeYdeb3BhubRHR8>

#### Selection Criteria:

Selection will be done based on first-come-first-serve basis to a maximum number of 100 (Hundred). Additionally, 10 participants from industry are allowed to participate. The list of selected participants will be intimated through e-mail. In case a candidate is not selected, the registration fee will be sent back. Candidates will be issued satisfactory certificates on successful completion of the course. Reservations are followed for selecting candidates as per GOI

#### Important Dates:

Last date (Application & DD)	05.07.2024
Selection List by E-mail	06.07.2024
Duration	08.07.2024 to 17.07.2024

#### About NIT Warangal:

National Institute of Technology, Warangal is the first among 17 RECs setup as joint venture of the Government of India and the state government. Over the years the college has established itself as a premier Institute imparting technical education of a very high standard leading to the B. Tech degrees in various branches of engineering, MTech. and Ph. D programs in various specializations.

#### About XIE, Mumbai:

Xavier Institute of Engineering (XIE), a sister institute of St. Xavier's College, Fort, Mumbai was established in 2005, and is a part of an international network of Jesuit Educational Institutions which includes 138 universities and 3413 Educational Institutions in 120 countries. XIE has got NBA accreditation for 2 programs and also NAAC accredited. XIE is the only Engineering college in India to have a Gait laboratory. This laboratory is sponsored by Marquee University, USA. XIE is ranked 57 among the top 170 Engineering Institute Rankings, 2022 XIE received the Green Mission Award from ONP Solar Private Limited for three consecutive years (2019, 2020, 2021). XIE also received the World Education Congress Award – 2022.

#### About Information Technology Department:

Information Technology department started functioning from the year 2005 with an intake of 60, offering bachelor's degree in Information Technology. The department has a mission to cultivate critical thinking skills through interactive learning in IT, equipping students with the technical expertise needed to address a wide array of IT challenges. We prioritize industry engagement and strive to instill social and professional ethics in our undergraduates while fostering a culture of lifelong learning. Notably, the IT department attained NBA accreditation in 2023
